Our Twenty Payment Combined Life and Endowment Policy
Is the Most Popular Contract written in the Insurance
World—Comprising as it does

1st, Insurance—Under State laws, and rigid examinations by State Insurance Department, making the policy-holder absolutely secure.

2nd, Endowment—The law requiring us to give Cash Surrender Values any time after two annual premiums have been paid.

3d, Annual Income—Our Distributions of Surplus or Dividends are declared yearly, commencing at the end of the first year

4th, Investment—At any time after two annual premiums have been paid the policy holder can take a Paid-up Participating Value which is inserted in the Policy and will earn Interest or Annual Income during life, with the Paid-Up Value payable at death.

5th, Collateral Values—Are based on the Cash Value inserted in the policy for each year of its history. Thus the policy has a Loanable Value any year after the second, increasing each year as the premiums are paid.

**SAN JACINTO.**

Is the second largest city in the county, being smaller than San Diego only. It is at the head of the great San Jacinto Valley, and at the foot of Mount San Jacinto, from whose sides pour down—summer and winter—torrents of clear, cold water in quantities sufficient to irrigate every acre of land in the vast plains below. This great supply of water is being utilized by several large and wealthy companies, among which are the Hemet, the Florida and the San Jacinto Flume Company, and it will eventually be absorbed by the Irrigation District already being formed in the valley. San Jacinto is most delightfully situated. It has several fine hot sulphur springs, an excellent sanitarium, and good churches, schools, and business houses. Its business men are energetic, and many of them are wealthy. San Jacinto is 19 miles from Perris, and is the terminus of the San Jacinto branch line of the Southern California railroad. It is 117 miles from San Diego, the county seat, and 93 miles from Los Angeles.
